

December 22, 2003

Mr. Clint Seiter
RCRA Enforcement Section
U.S. Environmental Protection Agency
75 Hawthorne Street
San Francisco, CA 94105

Mr. Seiter:

This letter is in response to the request for additional information concerning the hazardous waste inspection conducted at Associated Plating Company, 9636 Ann Street, Santa Fe Springs, CA 90670 on November 17, 2003. In response to the four items requested, the following is submitted:

1. Printouts that were provided to the inspectors of the listing the 186 drums with the addition of the waste codes, if applicable, and the accumulation start dates. See attachment A.
2. Copies of all hazardous waste manifests for the years 2001, 2002, and 2003. See Attachment B.
3. The job title for each position related to hazardous waste management, the name of each employee filling each job, a written job description for each position listed, a written description of the type and amount of both introductory and continuing training that will be given to each person listed above, and records that document that the training or job experience required has been completed. See Attachment C.
 - (A) The job title for the position related to hazardous waste management is Waste Treatment Operator, and is listed as such on Associated Plating Company's census. The employees who perform this job function are Ken Hergesheimer and Gerardo Herrera.
 - (B) The job description to the Waste Treatment Operator is contained in Attachment C.
 - (C) The type and amount of both introductory and continuing training that will be given to each person filling the position is contained in the job description for the position. See Attachment C.
 - (D) Training records are contained in Attachment D.
4. The results of the hazardous waste determination for the materials depicted in the photographs provided. The waste codes, if applicable, and accumulation start dates, if the material is a hazardous waste, have been included. In addition, photographs taken by Associated Plating Company after the inspection have been used to further illustrate and document container contents. See Attachment D.

If you have any questions, comments, or need additional information, please feel free to contact me at (562) 946-5525.

Regards,

Diana F. Crane
Vice President of Quality

cc: Richard Kallman, Santa Fe Springs Fire Department

EPA INSPECTION RESPONSE

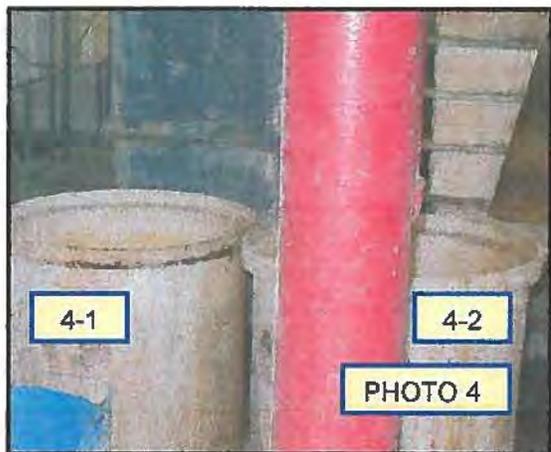

Filter cartridges from nickel plating. In process of being dried to drain free liquids.

Chromate rinse used in processing. Rinse water system had been shut down while clog in the drain line outside the building was being detected and removed.

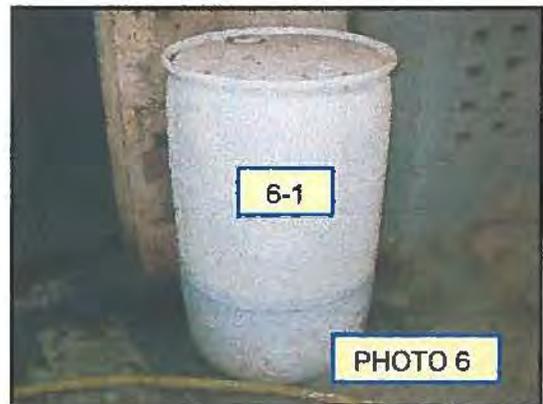

Chromate rinse used in processing. Rinse water system had been shut down while clog in the drain line outside the building was being detected and removed.

Chromate rinse used in processing. Rinse water system had been shut down while clog in the drain line outside the building was being detected and removed.

Copper solution removed from tank during pump repair – returned to tank.

Chromate solution that had been decanted from a process tank –reused.

7-1

PHOTO 7

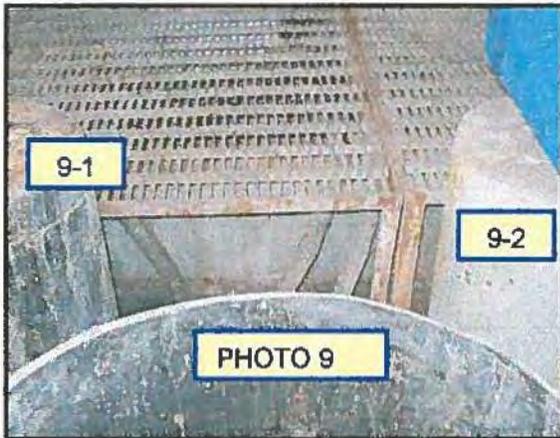

Filter cartridges used in nickel plating.

8-1

PHOTO 8

Rinse water from chromate processing.

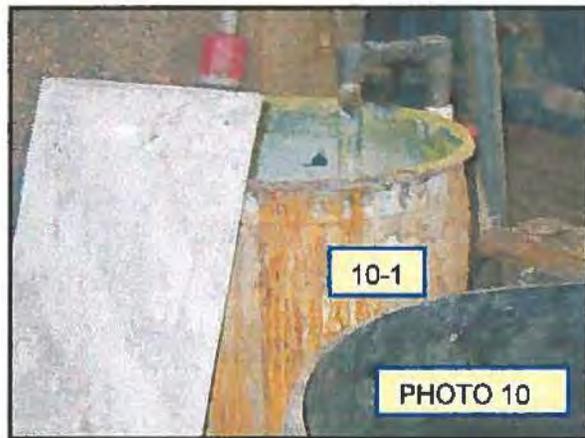

9-1

9-2

PHOTO 9

Spent Sulfuric Acid solution used for hourly cleaning of the electro coagulation unit.

10-1

PHOTO 10

In-process Sulfuric Acid used for hourly cleaning of the electro coagulation unit.

11-1

11-2

11-3

PHOTO 11

Evaporated chromate rinses. Returned to process tank to recover chemistry

12-4

12-3

12-1

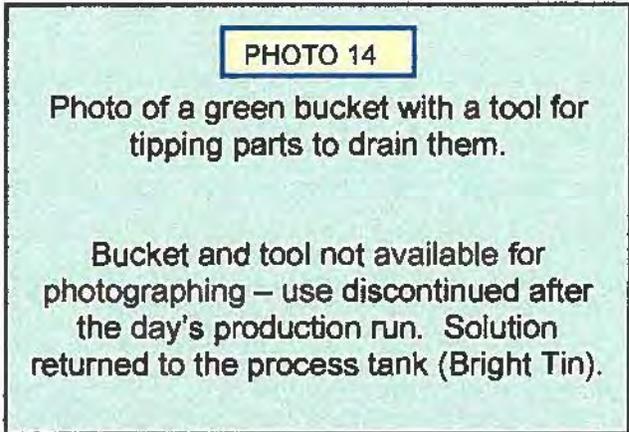

12-2

PHOTO 12

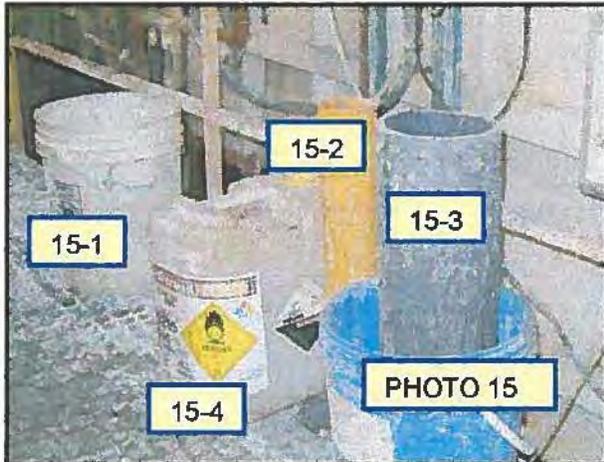

All drums contain water collected from routine berm cleaning.

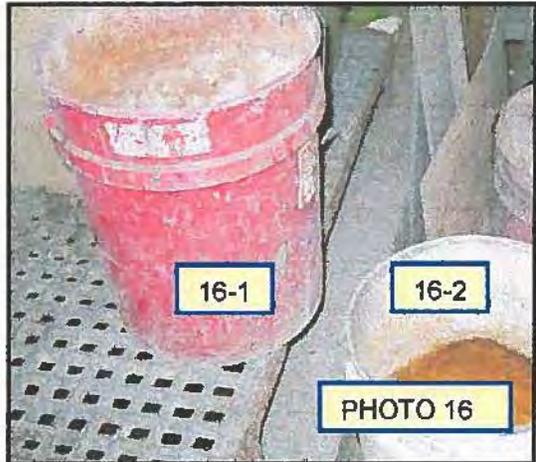

Solids from copper tank maintenance.

Bucket and tool used to tip parts to drain them.

1 – 3 In-process solutions used for tin stripping.
4 Tin strip – raw material

Dehydrated rinses from chromate treatment.

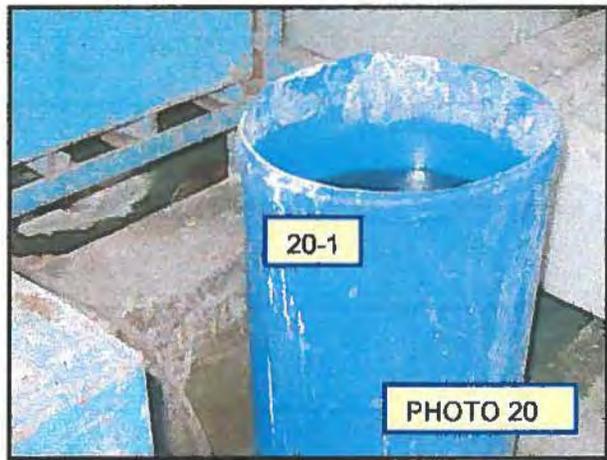

Blasting media on floor after media change out

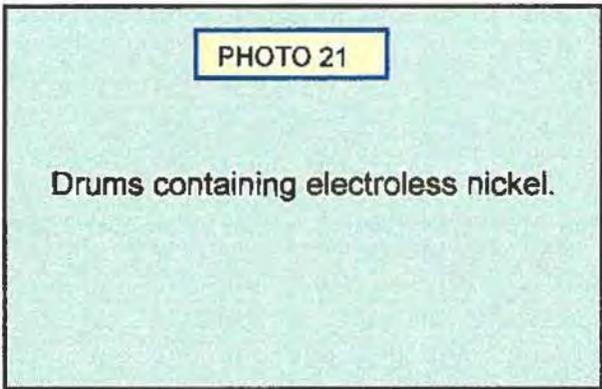

Heat exchanger cooling water used on electroless nickel tanks.

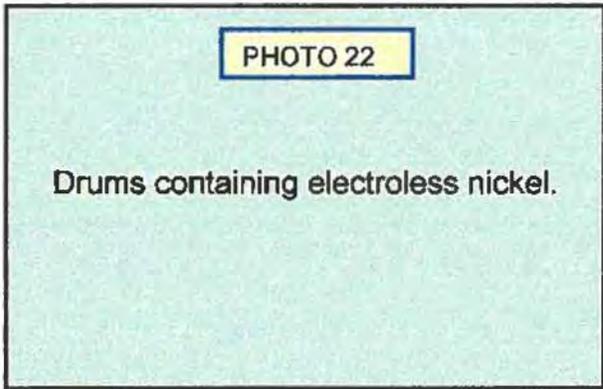

Alkaline cleaner from tank skimming.

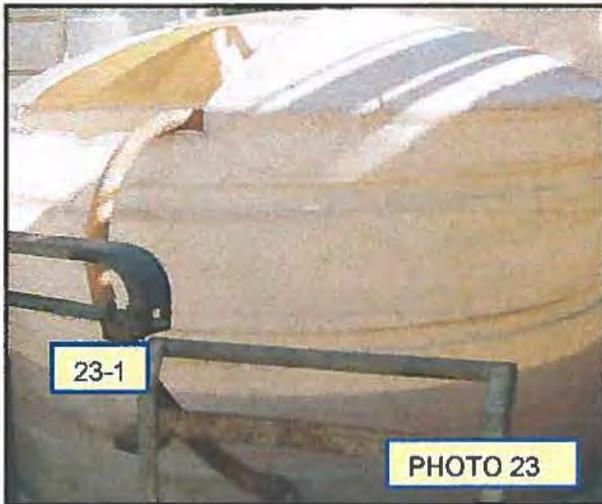

Cleaner sludge from tank maintenance.

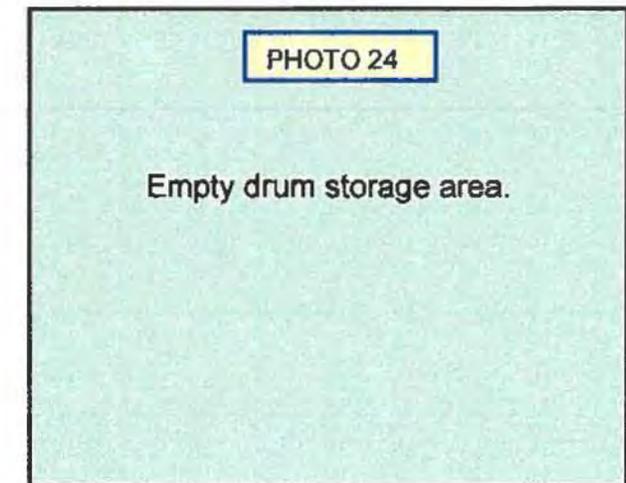

See inventory list for details – drums 166 – 186.

See inventory list for details – drums 166 – 186.

Spent cleaner solution that has undergone partial treatment.

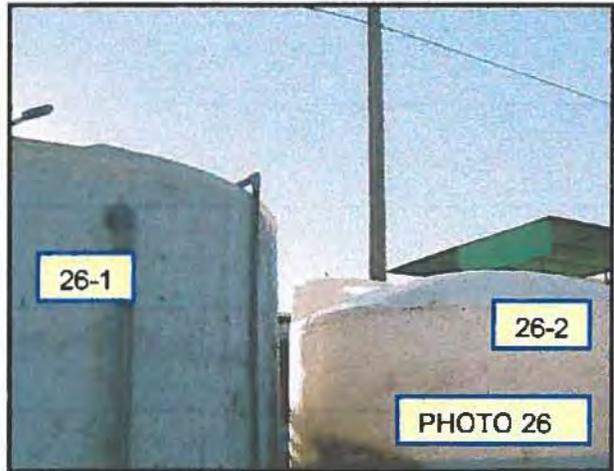

Drums contained rainwater from loose fitting tops.

PHOTO 25

Drum containing foam from daily skimming of the electro coagulation unit.

Drum removed and replaced with a closed top bucket. Emptied daily.

Two holding tanks for rinse water used in the closed loop electro coagulation system

PHOTO 27

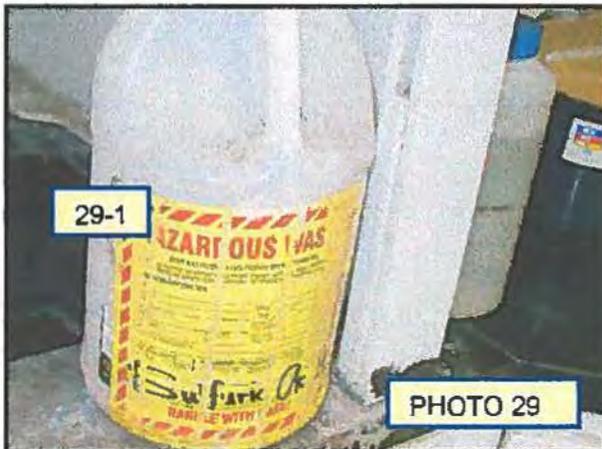

Drums along the back wall in the Waste Treatment Department.

See inventory list for details – drums 34 - 52.

PHOTO 28

Drums along the back wall in the Waste Treatment Department.

See inventory list for details – drums 34 - 52.

Sulfuric Acid used in lab analysis – not a waste.

Containers used to collect acidic and alkaline titration solutions from lab analysis.

CERTIFICATE OF RESTRICTED WASTE MEETING TREATMENT STANDARDS

Pursuant to CCR Title 22, Section 66268.68.7(a)(2), if a generator determines that they are managing a restricted waste and determines that the waste can be land disposed without further treatment, with each shipment of waste the generator shall submit, to the treatment, storage or land disposal facility, a notice and certification stating that the waste meets the applicable treatment standards set forth in CCR

Manifest Number 22779767 Generator Name ASSOCIATED PLATING EPA# _____ CAD043079110

I. WASTE MEETS TREATMENT STANDARDS (CCR Title 22, Chapter 18, Section 66268.7(a)(2)(B))

I certify under penalty of law that I personally have examined and am familiar with the waste through analysis and testing or through knowledge of the waste to support this certification, that the waste complies with the treatment standards specified in CCR Title 22, Division 4.5, Chapter 18, Article 4 and 11 and all applicable prohibitions set forth in CCR Title 22, Section 66268.32 or RCRA Section 3004(d). I believe that the information I submitted is true, accurate and complete. I am aware that there are significant penalties for submitting a false certification, including the possibility of a fine and imprisonment.

Manifest Line Item Numbers(s) 11a

Authorized Representative-Initial _____

II. WASTE MEETS PERFORMANCE STANDARDS (CCR Title 22, Chapter 18, Section 66268.7(b)(5)(A))

I certify under penalty of law that I personally have examined and am familiar with the treatment technology and operation of the treatment process used to support this certification and that, based on my inquiry of those individuals immediately responsible for obtaining the information, I believe that the treatment process has been operated and maintained properly so as to comply with the performance levels specified in CCR Title 22, Division 4.5, Chapter 18, Article 4 and 11 and all applicable prohibitions set forth in CCR Title 22, Section 66268.32 or RCRA Section 3004(d), without impermissible dilution of prohibited waste. I am aware that there are significant penalties for submitting a false certification, including the possibility of a fine and imprisonment.

Manifest Line Item Numbers(s) _____

Authorized Representative-Initial _____

III. WASTE MEETING TECHNOLOGY STANDARDS (CCR TITLE 22, CHAPTER 18, SECTION 66268.7(b)(5)(B))

I certify under penalty of law that the waste has been treated in accordance with the requirements of CCR Title 22, Section 66268.42 and Section 66268.108. I am aware that there are significant penalties for submitting a false certification, including the possibility of fine and imprisonment.

Manifest Line Item Numbers(s) _____

Authorized Representative-Initial _____

IV. WASTE TREATED TO REMOVE RCRA CHARACTERISTICS (CCR Title 22, Chapter 18, Section 66268.7(b)(5)(D))

I certify under penalty of law that the waste has been treated in accordance with the requirements of CCR Title 22 Section 66268.40 to remove the hazardous characteristics. This decharacterized waste contains Underlying Hazardous Constituents (UHCs) that require further treatment to meet Universal Treatment Standards (UTSs). I am aware that there are significant penalties for submitting a false certification, including the possibility of fine and imprisonment.

Manifest Line Item Numbers(s) _____

Authorized Representative-Initial _____

V. DEBRIS TREATED TO MEET ALTERNATIVE STANDARDS (CCR Title 22, Chapter 18, Section 66268.7(d)(3)(C))

I certify under penalty of law that the debris has been treated in accordance with the requirements of CCR Title 22, Division 4.5, Chapter 18 Section 66268.45. I am aware that there are significant penalties for submitting a false certification, including the possibility of fine and imprisonment.

JOB DESCRIPTION FOR WASTE TREATMENT OPERATOR

Nature of Work

This is a semi-skilled position in the operation of the rinse water system and wastewater treatment plant. Work involves the general operation of the rinse water deionization system and wastewater treatment facilities. Work includes responsibility for proper operation and maintenance of equipment and testing procedures.

Duties and Responsibilities

Operates electric pumps, control panels and other wastewater plant equipment.

Performs periodic checks on equipment and systems, logs plant operations, and records readings and test results.

Assists in routine maintenance and repairs, reports malfunctions and operating problems to the President or Vice President of Quality.

Performs routine plant housekeeping chores such as cleaning and painting.

Attends seminars and training sessions on wastewater operations.

Performs other work as required.

Knowledge/Abilities/Skills

Basic knowledge of the functions and mechanics of pumps, engines, and other electrical equipment and machinery.

Some basic knowledge of water or plating chemistry desirable.

Ability to perform instrumental analysis on pre-treatment and post-treatment solutions.

Ability to inspect machinery and mechanical equipment in operation and to detect operating defects and potential problems.

Ability to read meters and charts accurately and to maintain accurate records of operations.

Ability to understand and follow oral and written instructions.

Ability to establish and maintain effective working relationship with other workers, managers, and regulatory agency officials.

Ability to learn water facilities operations and maintenance through on-the-job and formal training.

Ability to lift fifty pounds.

High school diploma, at a minimum.

Training

Supervised on-the-job training by an experienced Waste Treatment Operator for a period of time necessary to demonstrate proficiency in the operation of the deionization system for rinse waters and in waste treatment procedures.

Supervised on-the-job training by an experienced Waste Treatment Operator for a period of time necessary to demonstrate proficiency in the knowledge, abilities, and skills as described in the section above.

Classroom and seminar training required for Hazardous Waste Generators in accordance with CCR, Title 22, 66260-67786.

Classroom and seminar training required for On-site Hazardous Waste treatment in accordance with CCR, Title 22, 66265

24-hour or 40-hour Hazwoper training with annual refresher training.

ATTACHMENT D

CONTINUING EDUCATION

HAZARDOUS WASTE GENERATOR

This is to certify that

KEN HERGESHEIMER
ASSOCIATED PLATING CO.

Has satisfactorily completed the training required for Hazardous Waste Generator in accordance with CCR
Title 22, §§ 66260-67786.

Training Date: August 20, 2003

Training Provider:

Bernard A. Moore, P.E., C.E.
Moore Compliance & Training, Inc.
7441 Corbin Ave., San Diego, CA

CONTINUING EDUCATION

ON-SITE HAZARDOUS WASTE TREATMENT

This is to certify that

KEN HERGESHEIMER
ASSOCIATED PLATING CO.

Has satisfactorily completed the training required for On-Site Hazardous Waste Treatment in accordance with 22CCR 66265.

Training Date: August 20, 2003

Training Provider:

Bernard A. Moore, Expires 6-30-2005
Moore Compliance & Training, Inc.
7441 Corbin Avenue, Menlo Park, CA

CONTINUING EDUCATION

STORM WATER POLLUTION PREVENTION PROGRAM

This is to certify that

KEN HERGESHEIMER
ASSOCIATED PLATING CO.

Has satisfactorily completed the ongoing training for Storm Water Pollution Prevention Program in accordance with the State of California's Storm Water Discharge General Permit.

Training Date: September 17, 2003

Training Provider:

Bernard A. Moore, P.E., S.S., R.S.
Moore Compliance Training, Inc.
7441 Corbin Ave., Whittier, CA

Glendale Community College
Professional Development Center

Certificate of Achievement

presented to

Kenneth M. Hergesheimer

for completion of 80 hours of intensive training in

- Hazardous Material Management/40 Hour Hazwoper Certification
- Fire Prevention
- Workplace Health/Safety
- Environmental Management

and is awarded this certificate for completion of the Hazardous Materials and Safety in the Workplace Training Program.
The curriculum meets the Hazwoper, (40Hr.) certification training elements.
